HOW IT WORKS

The foreign investor program is run exclusively through Luvanex Realty and Luvanex Rentals. Our goal is to open up the real estate investment landscape in the United States to more foreign investors in Africa, Asia and other parts of the World by providing the ease of doing business in one of the most prestigious markets in the World.

Prior to this day and age, Luvanex Realty served the international investor community; most of whom paid full cash for the properties that piqued their interests due to the inaccessibility of loan facilities for non-immigrants. These investors hailed from notable countries within 5 continents – Africa, Asia, Europe, North America and South America and had the desire to purchase more properties if financing were possible.

Banks had always needed some level of comfort and reassurance from the investors purchasing properties through them who had no formal ties (such as citizenship or residency status) in the United States of America. However, the launch of our foreign investor program has now redefined the way investors purchase property in the United States of America

The benefits of the Foreign Investor Program are extensive and undeniable and we would be looking at a few of them below.

Investors now only get to put down 30% equity injection as a down-payment (rates are determined and locked through independent loan officers) while they obtain a conventional loan to purchase the property.

The property serves as collateral for the bank while the investor makes the monthly mortgage payment using the rents received on same property. Rates are typically between 6 & 8% while Luvanex also assigns you an agent to view each property via zoom or whatsapp video prior to making a decision on which to purchase.

In most cases the 30% equivalent may not translate to the amount of funds needed to purchase a property in the various home countries of the populations we serve.

This essentially means, no documentation necessary besides a passport bio-data page and one- month bank statement.

You also get to close on the new property at the nearest U.S Embassy in your home or your next of kin to close on your behalf in the United States if you are unable to physically come in for the closing.

Every application is reviewed on a case-by-case basis and handled by individual loan account managers in a process as pictorially summarized.

We have carefully analyzed the market needs as regards property buyers and tenants and our lending criteria is as follows:

QUALIFICATION FOR INVESTORS

HOW WE GET YOUR MONEY TO WORK FOR YOU
